1 Recommendation

The Victorian Electoral Commission (VEC) is required under the legislation for the electoral representation review to make a recommendation to the Minister for Local Government as to the number of councillors and the electoral structure that provides fair and equitable representation for the voters of the Hindmarsh Shire Council (s.219D *Local Government Act 1989*).

The VEC recommends that Hindmarsh Shire Council consist of six councillors to be elected from three two-councillor wards.

This recommended structure is indicated in the map on the back page of this Report.

2 Background

2.1 Legislative basis

The *Local Government (Democratic Reform) Act 2003* which amended the *Local Government Act 1989* (the Act), was passed by the Parliament in Spring 2003. The amendments included provisions for independent electoral representation reviews of all Victorian councils. In accordance with this new legislation, Hindmarsh Shire Council received notice pursuant to s.219C of the Act from the Minister for Local Government that an electoral representation review was to be conducted for the Hindmarsh Shire Council. The notice appeared in the *Victoria Government Gazette* on 29 July 2004.

Under the legislation, a council is required to appoint an electoral commission to conduct an electoral representation review. On 24 August 2004, Hindmarsh Shire Council informed the VEC that it had been appointed to conduct the review.

The purpose of an electoral representation review is to recommend an electoral structure that provides fair and equitable representation for the persons who are entitled to vote at a general election of the Council. Matters to be considered by the review are:

- a) the number of councillors;
- b) the electoral structure of the Shire (whether the Shire should be unsubdivided or divided into wards; and, if the Shire is to be subdivided, the number of wards and the number of councillors to be elected for each ward); and
- c) if the recommendation is for the Shire to be divided into wards, boundaries for the wards that will:
 - i. provide for a fair and equitable division of the Shire; and
 - ii. ensure equality of representation, through the number of voters represented by each councillor being within 10% of the average number of voters represented by all councillors.

2.2 The VEC and electoral representation reviews

The VEC has ten years' experience in working on municipal ward boundaries, being contracted by councils to prepare options for their consideration. VEC staff have also worked for the Electoral Boundaries Commission in State redivisions. In doing this work, the VEC has used sophisticated mapping software, has conducted field research

and has developed expertise in preparing electoral boundaries that both comply with legislative approximate equality requirements and respect communities of interest.

The VEC has engaged Mr Vern Robson to provide expertise in the field of local government. Mr Robson has worked in local government since 1955, and has been the Town Clerk and Chief Executive Officer of the City of Warrnambool, the Chief Commissioner of the City of Ballarat, the Administrator of the Mansfield Shire Council and the Director of the Local Government Branch of the Department of Infrastructure.

2.3 Municipality profile

Hindmarsh Shire was formed in 1995 by the amalgamation of the Shires of Dimboola and Lowan.

Agriculture, forestry and fishing is the largest employment sector in the Shire, followed by health and community services, the retail trade and manufacturing. The unemployment level is low, but the proportion of people between 18 and 34 is substantially below the proportions in regional Victoria generally (people in this age group tend to move to larger cities). Home ownership rates are much higher than in regional Victoria as a whole (and there is a smaller proportion of renters), but household incomes tend to be lower. Hindmarsh Shire has an above-average proportion of people over 60, a proportion that is expected to increase between 2001-2011 by about the same amount as in regional Victoria generally.

As in most of regional Victoria, the majority of residents come from an English-speaking background, with relatively small numbers of people from other backgrounds.

Between 2004 and 2012, the population is expected to decrease by 7.21%, in contrast to regional Victoria generally, where it is expected to rise. This is one of the highest rates of population loss in Victoria, exceeded only by Buloke, West Wimmera and Yarriambiack.

(Sources: Department of Infrastructure: Victoria in Future; Department of Sustainability and Environment: Regional Victoria in Fact 2001; Department of Sustainability and Environment: Towns in Time; Department of Sustainability and Environment: Know Your Area).

2.4 Current electoral structure

At present, Hindmarsh Shire Council has six councillors, elected from three two-councillor wards.

3 Electoral Representation Review Process

Section 219D of the *Local Government Act 1989* specifies that the purpose of an electoral representation review is to achieve "fair and equitable representation for the persons who are entitled to vote at a general election of the Council." To achieve this, the VEC proceeds on the basis of three main principles:

1: to ensure that the number of voters represented by each councillor is within 10% of the average number of voters per councillor for that municipality

Populations are continually changing – they grow in some areas and decline in others. Over time, these changes can lead to some wards having larger or smaller numbers of voters. As part of a representation review, the VEC needs to correct any imbalances that have come about. The VEC also tries to make sure that the

boundaries it sets will continue to provide equitable representation until the next review is due in eight years, by taking account of likely future changes.

2: to take a consistent, State-wide approach to the total number of councillors

Regarding the number of councillors, the VEC has adopted as a guide the numbers of councillors in similar-sized municipalities of similar categories within Victoria. In addition, the VEC considers any special circumstances that warrant the municipality having more or fewer councillors than similar municipalities.

3: to ensure that communities of interest are as fairly represented as possible

Every municipality contains a number of communities of interest. The electoral structure should be designed to take these into account where practicable. This is important for assisting the elected councillors to be effective representatives of the people in their particular municipality.

The VEC bases its recommendations on a number of factors, including the following:

- internal research specifically relating to the municipality under review;
- the VEC's experience from its work with other municipalities and in similar reviews for State elections;
- the VEC's expertise in mapping, demography and local government; and
- careful consideration of all input from the public in both written and verbal submissions made during the course of the review.

Input from the public is an important part of the process, but it is not the only factor considered. The VEC seeks to ensure fair and equitable representation for all voters of the municipality. This means carefully considering all views expressed in submissions from the public, and also considering other factors, such as the best possible representation for the various communities of interest in the municipality under review.

In considering public submissions, the VEC values the local knowledge and local perspectives that are presented. The VEC believes it important to consider the issues and information presented in submissions, as well as the arguments for particular structural models. In reaching its recommendations, the VEC seeks to combine the information gathered through public submissions with its own research in order to achieve what it considers to be a fair and equitable result until the next review period. The VEC does not make its recommendations based on a "straw poll" of the number of submissions supporting a particular option.

Further details about issues considered by the VEC can be found in Sections 8.1 and 8.2 of this Report and in the Guide for Submissions (Appendix 9.4).

4 Public Involvement

4.1 Public information

The VEC informed the community about the electoral representation review through:

- advertising in newspapers;
- conducting an information session on 27 October 2004, to outline the review process and to respond to questions from members of the community;

-
- distributing a Guide for Submissions.
 - communicating with the Hindmarsh Shire community through the use of media releases and the VEC website;
 - developing an information leaflet and delivering it to all households in Hindmarsh Shire;
 - publishing all submissions on the VEC website;
 - releasing a Preliminary Report on 1 December 2004 and making the Report available at the Council offices, at the VEC and on the VEC website;
 - conducting a public hearing on 2 February 2005; and
 - establishing a help line for responding to community questions.

4.2 Advertising

In accordance with s.219F(4) of the Act, the VEC published the following advertisements for the electoral representation review:

- a public notice which detailed the process of the Hindmarsh Shire Council review and called for public submissions appeared in the *Dimboola Banner* and the *Nhill Hindmarsh Messenger* on 13 October 2004, in the *Rainbow Argus* on 14 October 2004 and in the *Wimmera Mail Times* on 15 October 2004;
- a general advertisement covering several electoral representation reviews, including the Hindmarsh Shire Council review, appeared in *The Age* and in the *Herald Sun* on 13 October 2004;
- a notice of the Preliminary Report appeared in the *Dimboola Banner* and the *Nhill Hindmarsh Messenger* on 1 December 2004, in the *Rainbow Argus* on 2 December 2004 and in the *Wimmera Mail Times* on 3 December 2004;

See Appendix 9.1.

4.3 Media releases

Media releases designed to supplement the paid advertising were distributed to the *Dimboola Banner*, the *Nhill Hindmarsh Messenger*, the *Rainbow Argus* and the *Wimmera Mail Times* on 13 October 2004 and on 1 December 2004.

See Appendix 9.2.

4.4 Information leaflet

An information leaflet about the review was delivered to all households in the Shire from 11 October 2004.

See Appendix 9.3.

4.5 VEC website

The VEC used its website to deliver information and to provide transparency in the review process. All preliminary submissions and submissions in response to the Preliminary Report were posted to the website to facilitate public access to this information. The VEC website can be viewed at www.vec.vic.gov.au

4.6 Helpline

The VEC established a help line to assist with public enquiries concerning the electoral representation review process.

4.7 Guide for Submissions

The VEC developed and distributed its Guide for Submissions to help those persons interested in making submissions. A copy of the Guide is attached.
See Appendix 9.4.

5 Preliminary Report

In accordance with s.219F(6) of the Act, the VEC produced a Preliminary Report containing its proposed options for Hindmarsh Shire Council. In developing these proposed options, the VEC considered preliminary submissions made by various persons and groups, as well as various other relevant factors.

5.1 Preliminary submissions

By the closing time for submissions (8 November 2004 - 5.00 pm), the VEC had received nine preliminary submissions.

Six of the nine submissions argued that the current three-ward structure be retained. Those who favoured the status quo suggested that the structure is working well, the three wards reflect the Shire's three main communities and that voter numbers currently fall within the legislative tolerance. In regards to the number of councillors, these submissions argued that the municipality's large geographic area justifies the current six councillors. One submission referred to the fact that six is an even number and it noted that this has not presented as a difficulty for the Hindmarsh Shire Council – a casting vote has rarely been used by the Mayor in the years since amalgamation.

One of the submissions received suggested that Hindmarsh Shire be divided into five wards. This submission argued that the west and the east wards should remain as they are and should continue to be represented by two councillors each. It went on to suggest three wards in the northern parts of the Shire, each with one councillor to represent the individual communities of interest.

Another submission preferred an unsubdivided electoral structure. The submission argued that current boundaries do not currently reflect existing communities of interest. It suggested that since all councillors vote for matters that affect all voters, all voters should be able to vote for all councillors. Finally, the submission noted that an unsubdivided structure would reduce the chance of elections going uncontested.

The final submission argued for an unsubdivided structure involving either seven or nine councillors but it offered a three ward structure as an alternative. This submission favoured a system of voting by proportional representation.

See Appendix 9.5 for details of those persons and groups making preliminary submissions. Copies of the submissions can be downloaded from the VEC website, www.vec.vic.gov.au

5.2 VEC research

In addition to information provided in submissions, the VEC conducted its own research. The VEC conducted research into the demographics of the municipality, using a number of data sources including the 2001 Census. The VEC also took into

account changes predicted by the Department of Sustainability and Environment and the Department of Infrastructure. Summaries of some of this research were published in the Guide for Submissions, the Preliminary Report and in Section 2.3 of this Report.

Development projections based on information presented by the Council were also taken into consideration. Extensive field-work was conducted throughout the municipality by the VEC.

5.3 Recommended options

Having considered the preliminary submissions made by various individuals and organisations and all other relevant factors, the VEC proposed two preliminary options for public comment.

Preferred option:

- **That Hindmarsh Shire Council consist of six councillors to be elected from three two-councillor wards.**

Alternative option:

- That Hindmarsh Shire Council consist of five councillors to be elected from an unsubdivided municipality.

Detailed maps of these two options, showing recommended ward boundaries, were included in the Preliminary Report.

6 Response submissions

In accordance with s.219F(7) of the Act, the VEC invited written submissions in response to its Preliminary Report.

By the close of submissions, 17 January 2005 – 5.00 pm, the VEC had received five response submissions.

Four of the five submissions favoured the VEC's preliminary preferred option of retaining three two-councillor wards. Three submissions suggested that since the electoral structure is working well for the community, there is no need for change. A third submission agreed that the current structure is working well and suggested that its retention would encourage ongoing stability. The submission argued that a change to an unsubdivided structure involving five councillors would narrow representation and would reduce councillor accessibility. It proposed that the Shire's current ward names be retained.

One submission favoured the VEC's preliminary alternative option of an unsubdivided council involving five councillors. The submission noted that the unsubdivided system is working well for the Shire's two neighbouring municipalities (West Wimmera Shire and Horsham Rural City). The submission suggested that the introduction of an unsubdivided structure could help unify the Shire and that such a structure would provide a better opportunity for representatives of the municipality's large farming areas to offer themselves as candidates for election.

See Appendix 9.5 for details of those persons and groups making response submissions. Copies of the submissions can be downloaded from the VEC website, www.vec.vic.gov.au

7 Public hearing

A public hearing was held at Jeparit on 2 February 2005 at 6.30 pm. All persons who had made submissions in response to the VEC's Preliminary Report were invited to speak to their submissions and two people chose to do so. Members of the public were invited to attend and five people, including those speaking at the hearing, were present.

8 Findings and recommendations

The Act states that the purpose of the review is to consider two matters. The first matter is the number of councillors for the municipality and the second matter is the electoral structure of the municipality.

8.1 Number of councillors

Issues considered by the VEC

The legislation provides that a council must consist of between 5 and 12 councillors (s.5B(1)). It does not, however, prescribe the matters to be considered by the reviewer in recommending the number of councillors for a municipality.

The VEC has therefore been required to identify the appropriate matters to take into account when considering the number of councillors.

In terms of voter numbers, Victorian municipalities vary from 4,054 to 164,273. The VEC applies the legislative provisions relating to numbers of councillors in a logical way: with those councils that have the largest number of voters having the most councillors, and those councils that have the least number of voters having fewer councillors.

In most cases, the electoral structure and the number of councillors were established during the period of the Commissioners when local government was restructured between 1993 and 1995. Commissioners did not have the benefit of a State-wide reference when considering the appropriate number of councillors for their respective municipalities. The result was a degree of disparity in councillor numbers for similar types of municipalities. The VEC has produced a table that lists each municipality and the councillor to voter ratio. The table differentiates between rural, regional and metropolitan councils in recognition of the different circumstances and needs between these categories of councils. The table has been a valuable reference point in considering the appropriate number of councillors and was made available to the public in the Guide for Submissions. The information has enabled the VEC to compare a council being reviewed with councils with similar voter numbers and areas.

The VEC also considers whether the number of voters in the municipality is anticipated to increase or decline in the period between reviews (eight years). Population forecasts produced by the Australian Bureau of Statistics and the Victorian Department of Sustainability and Environment have been used to assist the VEC in making its assessment.

In addition, the VEC considers any special issues or circumstances that may require a council to have more or fewer councillors than would otherwise be the case. Public submissions provide valuable information regarding any such issues or circumstances.

8.2 Electoral structure

Issues considered by the VEC

Provisions within the Act allow for a municipality to be unsubdivided, with all councillors elected “at large” by all voters, or for a municipality to be subdivided into a number of wards. If wards have only one councillor, preferential voting applies. Under an unsubdivided or a multi-councillor ward structure, councillors are elected through proportional representation. With each system, voters mark their ballot papers the same way.

If the municipality is subdivided into wards, there are three options available:

- single-councillor wards;
- multi-councillor wards; and
- a combination of both single-councillor and multi-councillor wards.

Boundaries for wards must:

- provide for a fair and equitable division of the municipality; and
- ensure equality of representation, through the number of voters represented by each councillor being within 10% of the average number of voters per councillor for the municipality.

In addition to the legislative requirements, a number of other factors were considered when evaluating subdivided structures. These factors included:

- communities of interest (Communities of interest are groups of people who share a range of common concerns. They may occur where people are linked with each other geographically, economically or through having particular needs.);
- spreading developing areas over a number of wards;
- using logical boundaries such as main roads, physical features and existing boundaries for easy identification of wards; and
- taking account of likely population changes.

In developing ward boundaries, the VEC aims to achieve the best possible balance between these criteria.

8.3 The VEC’s findings

In conducting electoral representation reviews, the VEC follows an extensive process of consultation as required by legislation. In the first instance, the VEC considers preliminary submissions along with a wide variety of other information in order to develop a preferred and (in most circumstances) an alternative electoral structure option for the council in question. The VEC then makes the options available in its Preliminary Report, to be assessed by the public in response submissions and at the public hearing. Having received feedback, the VEC either recommends its original model of representation or recommends an alternative.

The VEC followed this process during the Hindmarsh Shire Council review. The initial stages of consideration resulted in both a preferred and an alternative electoral structure which were put to the public in the VEC’s Preliminary Report. Submissions received by the VEC in response to its Report and statements made at the public hearing affirmed the suitability of the VEC’s preferred choice of electoral structure for the Hindmarsh Shire Council.

The existing multi-councillor ward structure

The VEC's process of determining an appropriate electoral structure for the Hindmarsh Shire Council began with an assessment of the Shire's existing structure which involves six councillors elected from three two-councillor wards.

The VEC received nine submissions at the preliminary stage and six of those submissions suggested that the current structure is working well and should be retained. Initially, the VEC was doubtful about the appropriateness of such a model. In terms of councillor numbers, the VEC noted that it is preferable to have a structure involving an uneven number of councillors. An uneven number serves to prevent potential council deadlocks and so removes the need to confer on the Mayor the task of casting important deciding votes. The VEC considered increasing the number of councillors to seven, but noted that this would result in a councillor to voter ratio that would be undesirably low in comparison with similar sized municipalities. The VEC considered that five would be the most appropriate number of councillors for Hindmarsh Shire.

The VEC did, however, note that while five would be the optimal number of elected representatives, three special factors combine in Hindmarsh Shire to make the current six-councillor structure highly workable. Firstly, the Council stated in its submission that a mayoral casting vote is rarely used in the Hindmarsh Shire Council decision making processes. None of the submissions made reference to any difficulties relating to the current even number of councillors. Secondly, the Shire is geographically larger than most other five-councillor rural municipalities. Finally, the VEC recognised that a six-councillor structure lends itself to a well balanced three-ward configuration, incorporating four significant townships and three distinct communities of interest. While the region as a whole can be seen to demonstrate a consistent rural theme, Nhill, Dimboola and Rainbow/Jeparit represent three separate population centres displaying their own individual identities. The division of the Shire into wards works well in terms of reflecting these respective communities of interest. Two councillors for each of three wards satisfies legislative requirements relating to voter numbers in each ward.

Since circumstances in the municipality indicated that the current structure of three two-councillor wards is appropriate in Hindmarsh Shire and in light of the fact that a clear majority of submissions supported this model, the VEC offered this structure as its preferred preliminary option.

A five-councillor structure

Whilst the VEC put forward the current six-councillor structure as its preferred option, in recognition of the fact that five would be an appropriate number of councillors for Hindmarsh Shire, the VEC considered a five-councillor structure as its alternative model.

The VEC considered a subdivided structure involving five councillors but noted that while a six-councillor model in Hindmarsh Shire is well suited to subdivision, a five-councillor subdivided structure is not nearly as appropriate. While such a structure could be made to satisfy voter number requirements, ward divisions would not adequately reflect the municipality's three broad communities of interest.

Having considered a subdivided structure, the VEC contemplated the possibility of introducing an unsubdivided structure involving five councillors. The VEC noted that

Hindmarsh Shire could be seen to be well suited to the removal of wards. The Shire contains three broad communities of interest, all of which display their own distinct identity, but it demonstrates no significant difference in terms of industry – the region displays a common farming theme. Hindmarsh Shire contains a relatively small population which can, under a subdivided structure, result in a limited choice of candidates for election by voters and can even result in uncontested elections. Under an unsubdivided structure, all voters would be entitled to vote for all councillors.

One of the nine preliminary submissions received by the VEC suggested an unsubdivided electoral structure for Hindmarsh Shire Council. In light of the fact that an unsubdivided option received less public support than the current structure and having regard to the fact that the current structure suits the municipality and is working well in practice, the VEC put forward the unsubdivided structure as its alternative option.

The structure is tested and affirmed

As noted above, legislation provides that in conducting an electoral representation review, the VEC must put forward its initial preferred and alternative options in a Preliminary Report. The VEC must also invite written submissions on the Report and it must hear verbal presentations if any person making a submission so requests. In effect, the Preliminary Report provides the VEC with an opportunity to test its preliminary options before formulating a final recommendation for the Minister to consider. Similarly, written and verbal responses to the Report operate either to affirm or deny the appropriateness of the electoral models suggested by the VEC.

In response to its Preliminary Report, the VEC received five submissions, four of which favoured the preliminary preferred option of retaining three two-councillor wards. Two people spoke at the public hearing, one in favour of the status quo and the other advocating an unsubdivided structure.

The person who preferred an unsubdivided municipality put forward two main arguments in support of the model. Firstly, he suggested that representatives of the municipality's vast farming areas would have a better chance of being elected under an unsubdivided structure than they would under a subdivided structure. He argued that given the size of the towns, under a subdivided structure councillors would be elected from those towns and voters in the rural areas could be left without representation.

In response, the VEC notes that the three-ward option guarantees voters in the north of the municipality representation whereas the unsubdivided structure does not offer such a guarantee. Under the VEC's three-ward structure, the number of electors in Jeparit is 385 and the number in Rainbow is 482. When combined, this urban township component is less than half of the total 1,814 electors in North Ward. The VEC appreciates the constructive suggestions provided in public submissions. In this case, the VEC believes that under the three-ward structure involving a system of voting by proportional representation, rural candidates will have a reasonable opportunity to be elected.

Secondly, the submitter suggested that an unsubdivided electoral structure would, most likely, exclude the possibility of an election going uncontested. The VEC acknowledges the importance of choice of candidates in the election process and it

notes that in 2003, the two councillors representing voters in East Ward were elected unopposed.

That VEC considers that at this point in time, despite what may be perceived to be some limitations in terms of choice, an electoral structure involving six councillors elected from three two-councillor wards will provide voters with the best opportunity for fair and equitable representation. This opinion was largely confirmed in the public consultation process.

Finally, in regards to ward names, the VEC notes that the public consultation process revealed support for the retention of the municipality's current ward names. Submissions suggested that the current names are more appropriate than the VEC's suggested alternative names because they are area related rather than location related. In response to these public suggestions, the VEC recommends that the current ward names be retained.

8.4 Recommendation

The VEC recommends that Hindmarsh Shire Council consist of six councillors to be elected from three two-councillor wards. The VEC recommends that the wards be called North Ward, West Ward and East Ward. The VEC considers that such a structure will provide voters in the Shire with fair and equitable representation for at least the next eight years.

STEVE TULLY

Electoral Commissioner

9 Appendices

9.1 Public notices of the electoral representation review

Electoral Representation Review Hindmarsh Shire Council

The Minister for Local Government has given notice under section 219C of the *Local Government Act 1989* that there is to be an electoral representation review of the Hindmarsh Shire Council. The Council has appointed the Victorian Electoral Commission (VEC) to conduct the independent review.

What is the review about?

The aim of the review is to ensure fair and equitable electoral representation for the voters of Hindmarsh Shire. The VEC will recommend to the Minister for Local Government:

- the appropriate number of councillors;
- whether the Shire should be unsubdivided or divided into wards; and
- if the Shire is to be divided into wards, how many wards there should be, the number of councillors per ward and the ward boundaries.

Information about the review is being delivered to all Hindmarsh Shire voters.

What will the VEC consider?

The VEC will consider the numbers of councillors and the electoral structures of comparable municipalities, communities of interest, demographics and growth potential. Arguments and information in public submissions will assist the review.

Any person or group may make a written submission to the VEC regarding electoral representation for Hindmarsh Shire. The VEC recommends consulting its Guide for Submissions first.

Key Steps in the Review

Step 1 - Information session, Wednesday, 27 October 2004 - 7.30 pm

- Jeparit Memorial Hall, Roy Street, Jeparit

Step 2 - Preliminary submissions. Deadline: Monday, 8 November 2004 - 5.00 pm

Step 3 - Preliminary Report, released Wednesday, 1 December 2004

Step 4 - Response submissions. Deadline: Monday, 17 January 2005 - 5.00 pm

Step 5 - Public hearing, Wednesday, 2 February 2005 - 6.30 pm

- Jeparit Memorial Hall, Roy Street, Jeparit

People may speak in support of their response submissions if they have requested to do so in those submissions.

Step 6 - Final Report, released Monday, 21 February 2005

The VEC will lodge a Final Report, containing its recommendations, with the Minister for Local Government.

For a Guide for Submissions or further information, call 13 18 32 or visit www.vec.vic.gov.au

Victorian Electoral Commission 

Electoral Representation Reviews Yarriambiack Shire and Hindmarsh Shire

The Minister for Local Government has given notice under section 219C of the *Local Government Act 1989* that there are to be electoral representation reviews of the following councils:

- Yarriambiack Shire Council
- Hindmarsh Shire Council

The councils have appointed the Victorian Electoral Commission (VEC) to conduct the independent reviews.

What are the reviews about?

The aim of the reviews is to ensure fair and equitable electoral representation for the voters of these shires. For each shire, the VEC will recommend to the Minister for Local Government:

- the appropriate number of councillors;
- whether the shire should be unsubdivided or divided into wards; and
- if the shire is to be divided into wards, how many wards there should be, the number of councillors per ward and the ward boundaries.

Under an unsubdivided or a multi-councillor ward structure, councillors are elected through proportional representation. Under a single-councillor ward structure, councillors are elected using preferential voting. With each system, voters mark their ballot papers in the same way.

What will the VEC consider?

The VEC will consider the numbers of councillors and the electoral structures of comparable municipalities, communities of interest, demographics and growth potential. Arguments and evidence in public submissions will assist the review. Any person or group may make a written submission to the VEC regarding electoral representation for these shires. The VEC recommends consulting its Guide for Submissions first.

Key steps in the reviews

Step 1 - Information sessions

Yarriambiack: *Tuesday, 26 October 2004*

Gateway BEET Offices, Lascelles Street, Hopetoun - 6.00 pm

Council Chambers, 41 Lyle Street, Warracknabeal - 8.00 pm

Hindmarsh: *Wednesday, 27 October 2004*

Jeparit Memorial Hall, Roy Street, Jeparit - 7.30 pm

Step 2 - Preliminary submissions

Any person or group may make a preliminary submission to the VEC.

Submissions for both municipalities must be received by *Monday, 8 November 2004 - 5.00 pm*.

Step 3 - Preliminary Reports

The VEC will release Preliminary Reports containing its preferred options on *Wednesday, 1 December 2004*.

Step 4 - Response submissions

Any person or group may make a submission to the VEC in response to the Preliminary Reports. Submissions for both municipalities must be received by *Monday, 17 January 2005 - 5.00 pm*.

Step 5 - Public hearings

People may speak in support of their response submissions. They must request to do in their response submissions.

Yarriambiack: *Tuesday, 1 February 2005*

Council Chambers, 41 Lyle Street, Warracknabeal - 6.30 pm

Hindmarsh: *Wednesday, 2 February 2005*

Jeparit Memorial Hall, Roy Street, Jeparit - 6.30 pm

Step 6 - Final Reports

The VEC will lodge Final Reports, containing its recommendations, with the Minister for Local Government. The Reports will be publicly available on the VEC's website, by calling the VEC and at council offices from *Monday, 21 February 2005*.

For a Guide for Submissions or further information, call 13 18 32 or visit www.vec.vic.gov.au

Electoral Representation Reviews

The Minister for Local Government has given notice under section 219C of the Local Government Act 1989 that there are to be electoral representation reviews of the following councils:

- Central Goldfields Shire Council
- Monash City Council
- Mount Alexander Shire Council
- Hindmarsh Shire Council
- Mildura Rural City Council
- Yarriambiack Shire Council
- Brimbank City Council
- Glen Eira City Council
- Maribyrnong City Council
- Horsham Rural City Council
- Loddon Shire Council
- West Wimmera Shire Council

The councils have appointed the Victorian Electoral Commission (VEC) to conduct the reviews.

What are the reviews about?

The aim of the reviews is to ensure fair and equitable electoral representation for the voters of these municipalities. For each municipality, the VEC will recommend to the Minister for Local Government:

- the appropriate number of councillors;
- whether the municipality should be unsubdivided or divided into wards; and
- if the municipality is to be divided into wards, how many wards there should be, the number of councillors per ward and the ward boundaries.

Under an unsubdivided or a multi-councillor ward structure, councillors are elected through proportional representation. Under a single-councillor ward structure, councillors are elected using preferential voting. With each system, voters mark their ballot papers in the same way.

What will the VEC consider?

The VEC will consider the numbers of councillors and the electoral structures of comparable municipalities, communities of interest, demographics and growth potential. Arguments and information in public submissions will assist the review.

Any person or group may make a written submission to the VEC regarding electoral representation for these municipalities. The VEC recommends consulting its Guide for Submissions first.

Making a submission

Further information about making a submission can be found in the Guide for Submissions. Submissions can be made by mail, fax or email. Submissions must reach the VEC by 5.00 pm on the following dates:

- | | | | |
|-----------------------------|-----------------|------------------------|------------------|
| • Central Goldfields Shire: | 1 November 2004 | • City of Brimbank: | 15 November 2004 |
| • City of Monash: | 1 November 2004 | • City of Glen Eira: | 15 November 2004 |
| • Mount Alexander Shire: | 1 November 2004 | • City of Maribyrnong: | 15 November 2004 |
| • Hindmarsh Shire: | 8 November 2004 | • Horsham Rural City: | 22 November 2004 |
| • Rural City of Mildura: | 8 November 2004 | • Loddon Shire: | 22 November 2004 |
| • Yarriambiack Shire: | 8 November 2004 | • West Wimmera Shire: | 22 November 2004 |

Electoral Representation Review

Hindmarsh Shire Council

Preliminary Report

The Victorian Electoral Commission (VEC) is conducting an electoral representation review for the Hindmarsh Shire Council. The review aims to achieve fair and equitable electoral representation for persons who are entitled to vote at the Council's general election. Having considered a range of information, including ideas contained in public submissions, the VEC has now released a Preliminary Report including its recommendations.

What are the recommendations in the Report?

Hindmarsh Shire currently has six councillors, elected from three two-councillor wards.

Preliminary Preferred option

The Report recommends that the Hindmarsh Shire Council consist of six councillors to be elected from three two-councillor wards.

Preliminary Alternative option

The Report also outlines an alternative option of a Council consisting of five councillors to be elected from an unsubdivided municipality.

The maps on the right show the options.

Where is the Report available?

Copies of the Preliminary Report are available from:

- the Hindmarsh Shire Council offices, 92 Nelson Street, Nhill;
- the VEC website, www.vec.vic.gov.au; and
- the VEC on 13 18 32.

Response submissions on the Report

Any person or group may make a response submission to the VEC about its Preliminary Report. Submissions can be:

- posted to the VEC at Level 8, 505 Little Collins Street, Melbourne Vic. 3000;
- emailed to hindmarsh.review@vec.vic.gov.au; or
- faxed to (03) 9629 9330.

The VEC recommends obtaining a copy of the Report and consulting its Guide for Submissions first. These documents can be obtained free of charge from the VEC.

Submissions must include the following information about the person or group making the submission:

- name;
- address;
- telephone contact number; and
- whether the person or group making the submission wishes to speak at a public hearing in support of their submission.

Submissions must reach the VEC by **Monday, 17 January 2004 – 5.00 pm**. Late submissions will not be accepted.

Submissions will be available to the public at the VEC office and on the VEC website.

Public hearing, Wednesday, 2 February 2005 – 6.30 pm

The hearing will be held at:

- Jeparit Memorial Hall, Roy Street, Jeparit

The hearing is open to the public, but only those people who have indicated in their submission that they would like to speak in support of their submission will be heard at the hearing.

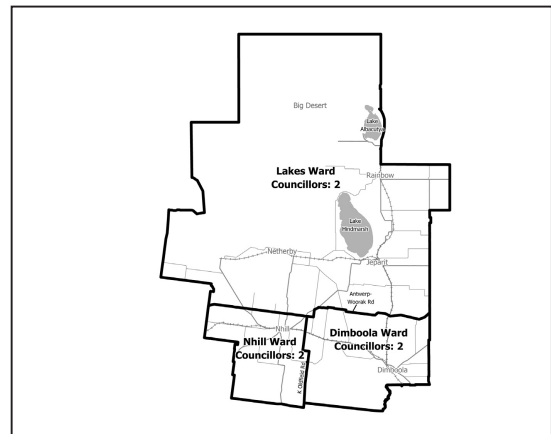

Final Report, Monday, 21 February 2005

After considering a variety of sources of information including ideas contained in submissions and presented at the public hearing, the VEC will prepare its Final Report making recommendations to the Minister for Local Government.

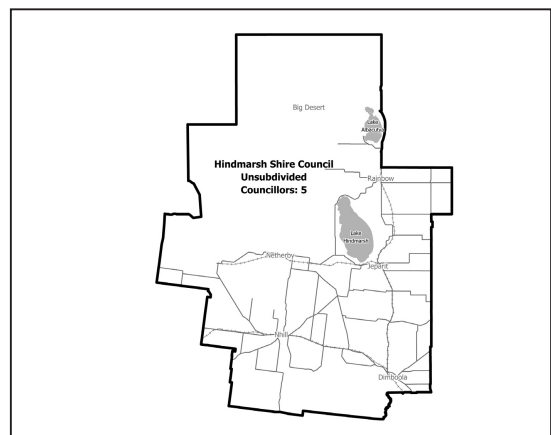

Further information 13 18 32 or visit www.vec.vic.gov.au

Electoral Representation Review publications are available in large print on request.

REPRESENTATION REVIEW GETS UNDERWAY

The electoral representation review for Hindmarsh Shire has begun. The review, conducted by the Victorian Electoral Commission (VEC), will consider the number of councillors for the Shire and the Shire's electoral structure.

"Anyone interested in the review should attend the public information session on 27 October," said the Acting Victorian Electoral Commissioner, Mr Doug Beecroft.

The details for the information session are:
Wednesday, 27 October 2004 - 7.30 pm

- Jeparit Memorial Hall, Roy Street, Jeparit

In conducting its review, the VEC will consider a range of information including arguments and evidence in public submissions.

Any person or group may make a written submission to the VEC about the review. Submissions do not have to be elaborate documents. A letter is perfectly acceptable, as long as it deals with the matters covered by the review. The VEC recommends consulting its Guide for Submissions which outlines the issues involved.

A leaflet about the review is being delivered to all Hindmarsh Shire voters living in the Shire.

Key dates for the Hindmarsh representation review are:

Monday, 8 November 2004 - 5.00 pm – Deadline for preliminary submissions. Submissions can be mailed, faxed or emailed to the VEC.

Wednesday, 1 December 2004 – The VEC will release a Preliminary Report containing its preferred options.

Monday, 17 January 2005 - 5.00 pm – Deadline for response submissions about the Preliminary Report.

Wednesday, 2 February 2005 – Public hearing. People will be able to speak in support of their response submissions if they have requested to do so in those submissions.

Monday, 21 February 2005 – The VEC's Final Report will be forwarded for consideration to the Minister for Local Government.

Any new electoral arrangements resulting from the review process would apply at the next Shire elections.

For more information, telephone the VEC on 13 18 32 or visit the VEC website www.vec.vic.gov.au

HINDMARSH SHIRE COUNCIL ELECTORAL REPRESENTATION REVIEW: PRELIMINARY REPORT RELEASED

The Victorian Electoral Commission (VEC) today released its Preliminary Report on electoral representation for Hindmarsh Shire. The VEC's preferred option is to have six councillors elected from three two-councillor wards. An alternative option is also presented, of five councillors to be elected from an unsubdivided municipality.

The Report has been released and is available on the VEC's web site at www.vec.vic.gov.au. The Report is also available at the Hindmarsh Shire Council offices, 92 Nelson Street, Nhill and at the VEC office, Level 8, 505 Little Collins Street, Melbourne, Vic., 3000.

People have until Monday, 17 January 2005 – 5.00 pm to lodge submissions with the VEC regarding its Preliminary Report.

People who wish to speak publicly in support of their submissions will have an opportunity to do so at a public hearing. The hearing will be held at the Jeparit Memorial Hall, Roy Street, Jeparit on Wednesday, 2 February 2005 – 6.30 pm.

The VEC's Final Report and recommendations will be lodged with the Minister for Local Government on Monday, 21 February 2005.

Any person who requires additional information can visit www.vec.vic.gov.au, contact the VEC on 13 18 32, or write to the VEC at Level 8, 505 Little Collins Street, Melbourne, Vic., 3000.

**PRELIMINARY ALTERNATIVE OPTION:
Five councillors elected from an unsubdivided municipality**

9.3 Information leaflet

Current structure of Hindmarsh Shire

Hindmarsh Shire currently has six councillors, elected from three two-councillor wards. Below is a map showing the Shire boundaries and the estimated number of voters as at 31 August 2004.

How to make a submission

Get the Guide for Submissions by telephoning the VEC on 13 18 32 or by checking our website at www.vec.vic.gov.au

Send your submissions to the VEC in one of the following ways:

- post to Level 8, 505 Little Collins Street, Melbourne, Vic. 3000; or
- email to hindmarsh.review@vec.vic.gov.au; or
- fax to (03) 9629 9330.

Electoral Representation Review of the Hindmarsh Shire Council

Conducted by the
Victorian Electoral Commission 

Why is this review being undertaken?

New legislation requires all Councils to have an independent electoral representation review every eight years. The Minister for Local Government has given notice of the first representation review for Hindmarsh Shire. The Council has appointed the Victorian Electoral Commission (VEC) to conduct the review.

What will the review recommend?

In carrying out the review, the VEC aims to ensure fair and equitable representation for voters of the municipality.

The VEC will make a recommendation to the Minister for Local Government as to:

- the appropriate number of councillors;
- the electoral structure of the Shire (whether it should be unsubdivided or divided into wards, how many wards there should be, and the number of councillors per ward); and
- the boundaries of the wards (if the Shire is to be divided into wards).

Under a single-councillor ward structure, councillors are elected using preferential voting. Under an unsubdivided or a multi-councillor ward structure, councillors are elected through proportional representation. With each system, voters mark their ballot papers the same way.

What will the VEC consider?

In conducting its review, the VEC will consider such factors as the number of councillors and the electoral structure of comparable municipalities, communities of interest, demographics and growth potential. The VEC will consider a range of information including ideas in public submissions.

Key steps in the review

Step 1 Information Session

Wednesday, 27 October 2004

Jeparit Memorial Hall,
Roy Street, Jeparit – 7.30 pm

Anyone interested in making a submission should attend.

Step 4 Response Submissions

Deadline:
Monday, 17 January 2005 – 5.00 pm

Any person or group may make a submission to the VEC about its Preliminary Report.

Step 2 Preliminary Submissions

Deadline:
Monday, 8 November 2004 – 5.00 pm

Any person or group may make a submission to the VEC. The VEC recommends consulting its Guide for Submissions.

Step 5 Public Hearing

Wednesday, 2 February 2005
Jeparit Memorial Hall,
Roy Street, Jeparit – 6.30 pm

People will be able to speak in support of their response submissions. They must request to do so in their response submissions.

Step 3 Preliminary Report

Wednesday, 1 December 2004

The VEC will release a Preliminary Report containing its preferred option(s). The Report will be publicly available.

Step 6 Final Report

Monday, 21 February 2005

The VEC will lodge a Final Report, containing its recommendations, with the Minister for Local Government. The Report will be publicly available.

9.4 Guide for submissions

Electoral representation review for the Hindmarsh Shire Council

Guide for Submissions

CHECKLIST:

Before you send in your submission:

- Have you included your name, address and telephone contact number?
- Do you understand that your submission will be made public (see page 5)?
- Have you given reasons for the model(s) you are suggesting?

If you are making a **response submission** to the Preliminary Report:

- Have you restricted your discussion to the models proposed in the Preliminary Report?
- Have you indicated whether or not you would like to speak to the submission at the public hearing (see page 5)?

In writing your submission, you might like to consider the following questions (you do not need to answer every question in order to make a useful submission):

The **number of councillors** (see page 9):

- Have you suggested a number between 5 and 12 (as required by legislation)?
- If the number of councillors you have suggested varies substantially from the numbers in similar-sized municipalities of a similar type, have you explained why?

The **electoral structures** (see pages 11-15):

- Have you indicated whether you want the municipality to be subdivided or unsubdivided?
- Have you explained why your preferred structure would best suit your municipality?

If you think that the municipality should be **subdivided into wards** (see pages 12-15):

- Have you indicated whether you want single-councillor wards, multi-councillor wards or a combination of both?
- Have you suggested ward names and given reasons for those names (see page 16)?

Background

What is an electoral representation review?

An electoral representation review examines the electoral structure of a local council. It considers:

- the number of councillors in a municipality;
- whether a municipality should be unsubdivided or subdivided; and
- if it should be subdivided, what the ward boundaries should be.

In addition, the review must make sure that, within each municipality, the number of voters represented by each councillor in each ward is within 10% of the average number of voters per councillor. That way, each person's vote has the same value.

Another important element to these considerations is that, according to the *Local Government Act 1989* (the Act), wards with only one councillor must elect that councillor using preferential voting, and wards with two or more councillors must elect them via proportional representation. If a municipality is unsubdivided, then all of its councillors must be elected using proportional representation.

When do representation reviews take place, and who conducts them?

The Local Government Act specifies that:

- electoral representation reviews must be conducted before every second council election; and
 - a council must appoint an Electoral Commission to undertake the review.
- On completion of the review, the Electoral Commission makes a recommendation to the Minister for Local Government, who then has the power to act on it.

This system of electoral representation reviews came into effect at the end of 2003 as a result of amendments to the Act. The first representation review for each municipality under this system takes place at a time specified by the Minister for Local Government by a notice in the *Victoria Government Gazette*.

On 29 July 2004, the Minister for Local Government gave notice under section 219C of the Local Government Act that an electoral representation review is to be conducted for Hindmarsh Shire. The Hindmarsh Shire Council has appointed the Victorian Electoral Commission (VEC) to conduct the review.

The VEC is an independent statutory authority and, in accordance with the Act, conducts reviews independently of both councils and the State government.

How did the current electoral structures come about, and on what were they based?

The electoral structures currently in place in municipalities across Victoria are diverse. This is because the present structures were determined individually for each municipality by the commissioners appointed during the restructures of the 1990s. The commissioners did not have any state-wide reference available to them when considering the appropriate number of councillors or the appropriate electoral structures for their municipalities. As a consequence, there are substantial differences between similar municipalities across Victoria. Subsequent to these reforms, councils have conducted their own electoral reviews.

What is the purpose of a representation review?

Section 219D of the Local Government Act 1989 specifies that the purpose of a representation review is to achieve “fair and equitable representation for the persons who are entitled to vote at a general election of the Council.”

To achieve this, the VEC proceeds on the basis of three main principles:

- 1: to ensure that the number of voters represented by each councillor is within 10% of the average number of voters per councillor for that municipality
- Populations are continually changing – they grow in some areas and decline in others. Over time, these changes can lead to some wards having larger or smaller numbers of voters. As part of an electoral representation review, the VEC needs to correct any imbalances that have come about. The VEC also tries to make sure that the boundaries it sets will continue to provide equitable representation until the next review is due in eight years, by taking account of likely future changes.
- 2: to take a consistent, State-wide approach to the total number of councillors
- Regarding the number of councillors, the VEC has adopted as a guide the number of councillors in similar-sized municipalities of similar categories within Victoria. In addition, the VEC considers any special circumstances that warrant the municipality having more or fewer councillors than similar municipalities.
- 3: to ensure that communities of interest are as fairly represented as possible

Every municipality contains a number of communities of interest (see page 10). The electoral structure should be designed to take these into account where practicable. This is important for assisting the elected councillors to be effective representatives of the people in their particular municipality.

What can't a representation review do?

The review cannot deal with the external boundaries of the municipality, or such matters as whether the municipality should be divided into two separate municipalities or amalgamated with another municipality.

On what does the VEC base its recommendations?

The VEC bases its recommendations on a number of factors, including the following:

- internal research specifically relating to the municipality under review;
- the VEC's experience from its work with other municipalities and in similar reviews for State elections;
- the VEC's expertise in mapping, demography and local government; and
- careful consideration of all input from the public in both written and verbal submissions made during the course of the review.

Input from the public is an important part of the process, but it is not the only factor considered. The VEC's recommendations are not made by a “straw poll” of the number of submissions supporting particular models. The VEC seeks to ensure fair and equitable representation for all voters of the municipality. This means carefully considering all views expressed in submissions from the public, but also considering other factors, such as giving representation to communities of interest (including those communities of interest which may not be particularly vocal).

The review process

Monday, 4 October 2004	the review begins	The VEC begins conducting research and preparing material for the public.
13, 14 and 15 October 2004	notification of the public	A notice detailing the process for the review and calling for submissions is placed in the <i>Dimboola Banner</i> , the <i>Mill Hindmarsh Messenger</i> , the <i>Rainbow Argus</i> and in the <i>Hossham Wimmera Mail-Times</i> . A leaflet outlining the purpose and process of the review is distributed to all households in Hindmarsh Shire.
Wednesday, 27 October 2004 – 7:30 pm	information session	An information session on the review process is held at: <ul style="list-style-type: none">• Jeparit Memorial Hall, Roy Street, Jeparit. Anyone interested in making a submission is advised to attend.
Monday, 8 November 2004 – 5:00 pm	closing date for preliminary submissions	Preliminary submissions are your chance to contribute your views and local knowledge about any issues relevant to the review. See details in the next section.
Wednesday, 1 December 2004	Preliminary Report released	Based on the VEC's research, including information presented by the public, the VEC formulates a series of different models for how the electoral structure of Hindmarsh Shire could be arranged. The models which best fit the VEC's aim of fairness and equity of representation are presented and explained in the Preliminary Report. For details of how to get a copy of the Report, see below.
Monday, 17 January 2005 – 5:00 pm	closing date for response submissions on the Preliminary Report	Any person or group, including the Council, may make a response submission to the VEC about the Preliminary Report. This is your chance to present any additional arguments regarding which of the VEC's models you believe best represents the people of Hindmarsh Shire.
Wednesday, 2 February 2005 – 6:30 pm	public hearing	A public hearing is held at: <ul style="list-style-type: none">• Jeparit Memorial Hall, Roy Street, Jeparit. People who state in their response submissions to the Preliminary Report that they want to speak in support of their submissions may do so at this public hearing.
Monday, 21 February 2005	Final Report	After considering any written submissions relating to the Preliminary Report, and information provided at the public hearing, the VEC prepares a Final Report making recommendations to the Minister for Local Government. For details of how to get a copy of the Final Report, see below.
		The Minister for Local Government considers the VEC's recommendations and may make a determination. Any determination will take effect at the next Council election.

Making a submission

Any person or group, including the Council, may make a submission to the VEC. Submissions do not have to be elaborate documents; a short letter is perfectly acceptable, as long as it addresses matters within the scope of the review (see the checklist inside the front cover of this document).

When can people make submissions?

The VEC accepts submissions at two stages of the review process:

Preliminary submissions should address matters relating to the number of councillors and the electoral structure of the municipality. At this stage, people can suggest any possible models within the constraints as explained in the "Matters to consider" section of this document. The most helpful submissions are generally those which provide clear explanations or evidence for particular viewpoints. Preliminary submissions must be received at the VEC by **Monday, 8 November 2004 – 5.00 pm. Late submissions will not be accepted.**

Response submissions on the Preliminary Report should address matters relating to the models proposed by the VEC in the Preliminary Report. Alternative models will not generally be considered at this stage. Response submissions should indicate whether the person making the submission wishes to speak at a public hearing in support of his or her submission. Response submissions must be received at the VEC by **Monday, 17 January 2005 – 5.00 pm. Late submissions will not be accepted.**

There will be a **public hearing** for people who want to speak in support of their response submissions on **Wednesday, 2 February 2005**. People wishing to speak must request to do so in their response submissions.

Where should submissions be sent?

Submissions can be sent to the VEC in the following ways:

- posted to Level 8, 505 Little Collins Street, Melbourne, Vic. 3000;
- emailed to hindmarsh.review@vec.vic.gov.au; or
- faxed to (03) 9629 9330.

Submissions must include the name, address and telephone contact number of the person making the submission. Without this information, the submission will not be accepted.

Public access to submissions

Once lodged, submissions will be available to the public at:

- the VEC office at Level 8, 505 Little Collins Street, Melbourne; and
- the VEC website www.vec.vic.gov.au

The VEC will publish all submissions received by the due date on its website. The name and locality of the person making the submission will also be published. The person's telephone number, street address and signature will not be published. The reason for making submissions available to the public is to ensure transparency in the electoral representation review process.

Getting copies of the Preliminary and Final Reports

Copies of the Preliminary and Final Reports will be available from the VEC website, www.vec.vic.gov.au, by contacting the VEC on 13 18 32, and at the Hindmarsh Council offices.

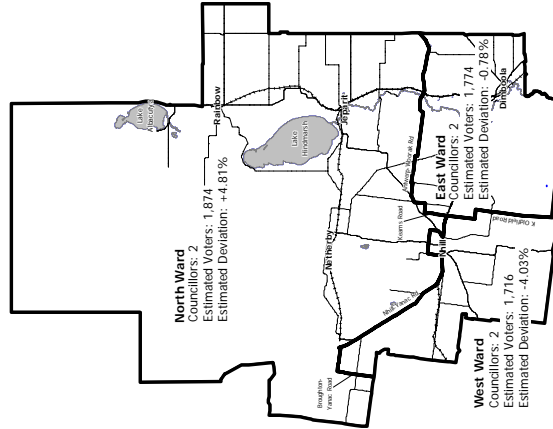

When the Preliminary Report is released, a notice in the *Dimboola Banner*, the *Mill Hindmarsh Messenger*, the *Rainbow Angus* and in the *Horsham Wimmera Mail-Times* will specify how people can make a written submission in response to the Report.

The Preliminary Report will be available from Wednesday, 1 December 2004.

The Final Report will be released on Monday, 21 February 2005.

Current structure of Hindmarsh Shire

Hindmarsh Shire currently has six councillors elected from three two-councillor wards. The map shows the current ward boundaries, the estimated number of voters for each ward as at 31 August 2004 and the voter deviation from the average. Updated voter numbers will be available shortly from the VEC's website, by telephoning the VEC or at the Information Session.

Hindmarsh at a glance

Hindmarsh Shire was formed in 1995 by the amalgamation of the Shires of Dimboola and Lowan.

At the 2001 Census, the population of Hindmarsh was distributed in the following way:

Nhill:	31.6%
Dimboola:	23.8%
Rainbow:	8.4%
Jeparit:	5.9%
Rural Balance:	30.3%

Agriculture, forestry and fishing is the largest employment sector in Hindmarsh, followed by health and community services, the retail trade and manufacturing. The unemployment level is low, but the proportion of people between 18 and 34 is substantially below the proportions in regional Victoria generally (people in this age group tend to move to larger cities). Home ownership rates are much higher than in regional Victoria as a whole (and there is a smaller proportion of renters), but household incomes tend to be lower. Hindmarsh has an above-average proportion of people over 60, a proportion that is expected to increase between 2001-2011 by about the same amount as in regional Victoria generally.

As in most of regional Victoria, the majority of residents come from an English-speaking background, with relatively small numbers of people from other backgrounds. Between 2004 and 2012, the population is expected to decrease by 8.41%, in contrast to regional Victoria generally, where it is expected to rise. This is one of the highest rates of population loss in Victoria, exceeded only by West Wimmera and Yarriambiack.

(Sources: Department of Infrastructure: *Victoria in Futures*; Department of Sustainability and Environment: *Regional Victoria in Fact 2007*; Department of Sustainability and Environment: *Towns in Time*; Department of Sustainability and Environment: *Know Your Area*).

Matters to consider when preparing submissions

There are many matters to be considered when determining the electoral structure of a municipality. In your submission, you might try to take all of the issues into account, or you might just concentrate on one issue that you wish to bring to the VEC's attention. The VEC's job is to look at all of the relevant matters and to reach the best overall solution, based both on its own research and submissions received from the public.

Below are some of the main matters you might like to consider.

How many councillors should there be?

Under the *Local Government Act 1989*, the number of councillors in every municipality must be between five and twelve inclusive (s.5B(1)). The Act does not specify how to decide what is the appropriate number, but the VEC has identified the following matters to consider.

Parliament has provided a range for the number of councillors to allow for municipalities with large numbers of voters and municipalities with smaller numbers. The numbers of voters in each municipality vary across Victoria from 4,070 to 161,569. The VEC applies these provisions of the Act in a logical way, with those municipalities that have the largest numbers of voters having the most councillors, and those municipalities that have the least numbers of voters having fewer councillors.

The VEC has produced a table that lists each municipality and its area, number of voters and number of councillors (see the end of this document). The table differentiates between rural, regional and metropolitan municipalities in recognition of the different circumstances and needs of these categories of municipalities. This table is a valuable reference point in considering the appropriate number of councillors. This information enables the VEC to compare the municipality being reviewed to other municipalities with similar voter numbers and areas.

The VEC also considers whether the number of voters in the municipality is expected to increase or decline in the period between reviews (eight years). Population forecasts produced by the Australian Bureau of Statistics and the Victorian Department of Sustainability and Environment are used to assist the VEC in making its assessment.

In addition, the VEC considers any special issues or circumstances that may require a municipality to have more or fewer councillors than would otherwise be the case. These might include such issues or circumstances as:

- significant population growth within the municipality;
- an especially mobile or transient population;
- cultural and linguistic diversity within the community;
- a large proportion of older residents who may have special interests and needs;
- a wide geographic distribution of voters within a large municipality; or
- a large number of communities of interest (see below).

Communities of interest

An important part of achieving "fair and equitable representation" is making sure that communities of interest are appropriately represented. Communities of interest are groups of people who share a *range* of common concerns or aspirations. They are different from "interest groups" or "pressure groups" which may only have one issue in common (or a very limited number of issues). The communities of interest to which people belong are often also an important part of their self-identity.

Communities of interest may occur where people are linked with each other geographically (e.g. a town or valley) or economically, such as where people work in similar industries (e.g. tourism) or where people work in mutually-dependant industries (e.g. fruit growers, transporters and canners). Communities of interest may also appear where people share a number of special needs because of similar circumstances (such as new immigrants, who may have little English, require assistance with housing and need help finding employment). Communities of interest may also include ethnic groups, retired people, the unemployed or many other groupings of people.

Communities of interest are important in electoral representation reviews when they have similar needs from their local government. In such cases, it is important to endeavour to ensure that communities of interest have the opportunity to be fairly represented on councils. There are a number of ways to take account of communities of interest, depending on how they are distributed geographically. For example:

If:	then fair representation may best be achieved by:
a community of interest is compact geographically,	creating a ward with boundaries reflecting that community of interest.
a community of interest is a widespread minority,	creating multi-councillor wards with proportional representation.
there are numerous minority communities of interest within a municipality,	combining the communities of interest, so that any elected councillor would be responsible to <i>all</i> of these groups.

There are also many other ways to take communities of interest into account.

Should the municipality be unsubdivided or divided into wards?

A municipality can either be unsubdivided, with all councillors elected “at large” by all of the voters, or it can be subdivided into a number of wards. Both electoral structures have advantages and disadvantages, and which structure is best for any individual municipality will depend on the municipality’s particular circumstances.

Hindmarsh Shire is currently divided into three wards, with two councillors representing each ward.

The following tables list characteristics that are commonly considered to be associated with the different possible electoral structures and may be of use in deciding which structure most suits your municipality.

The table at the end of this document lists all of Victoria’s municipalities and their electoral structures.

Unsubdivided municipalities

Unsubdivided municipalities must elect their councillors by proportional representation (see more on this point below).

The possible features of an unsubdivided municipality can be portrayed as follows:

Positive Features	Less Positive Features
Promotes the concept of a municipality-wide focus, with councillors being elected by and concerned for the municipality as a whole, rather than parochial interests.	May lead to significant communities of interest and points of view being unrepresented. May lead to councillors being relatively inaccessible for residents of parts of the municipality.
Gives residents and ratepayers a choice of councillors to approach with their concerns.	May lead to confusion of responsibilities and duplication of effort on the part of councillors. May be difficult for voters to assess the performances of individual councillors.
Each voter has the opportunity to express a preference for every candidate for the Council election. Removes the need to define internal ward boundaries.	Large numbers of candidates might be confusing for voters.
Results in a simple, less expensive voters’ roll for elections as compared with separate voters’ rolls for individual wards.	

Options for division into wards

If the municipality is to be divided into wards, there are three options:

- single-councillor wards;
- multi-councillor wards; and
- combinations of single and multi-councillor wards.

The Local Government Act specifies that wards with only one representative must elect that representative via preferential voting, whereas multi-councillor wards and unsubdivided municipalities must elect their representatives via proportional representation. As far as voters are concerned on the day, it makes no difference. In practice, ballot papers look the same and are filled out in the same way, regardless of whether the candidates are being elected by proportional representation or by preferential voting. Whether a ward elects councillors via proportional representation or preferential voting can sometimes make a difference as to whether or not communities of interest are fairly represented.

Single-councillor wards

The possible features of single-councillor wards can be portrayed as follows:

Positive Features	Less Positive Features
Councillors are more likely to be truly local representatives, easily accessible to residents and aware of local issues.	Councillors may be elected on minor or parochial issues and lack a perspective of what policies benefit the municipality as a whole. Ward boundaries may divide communities of interest, and may be difficult to define.
Major geographical communities of interest are likely to be represented. It is less likely that one particular point of view or sectional interest will dominate the Council.	Voters may have a restricted choice of candidates in elections for individual wards. Small populations in each ward may make ward boundaries more susceptible to change caused by demographic shifts.

Multi-councillor wards

A multi-councillor ward structure results in fewer but larger wards than a single-councillor ward structure.

The possible features of multi-councillor wards can be portrayed as follows:

Positive Features	Less Positive Features
This structure supports the accommodation of a whole community of interest (such as a sizeable town or group of suburbs) within a ward.	
Focus on issues may be broader than for single-councillor wards (though councillors may be more locally focussed than in an unsubdivided municipality).	Very local issues may be overridden. Groups may form within the council based on multi-councillor wards, leading to possible division between councillors.
Councillors may be more accessible than in an unsubdivided municipality. Electors have a choice of councillor to approach.	In very large wards, councillors may not be accessible for residents in parts of the ward. Duplication or gaps may occur if councillors do not communicate or share their workloads effectively.
Councillors may share workloads more effectively. Ward boundaries are likely to be easy to identify and less susceptible to change as a result of population growth or decline than for single-councillor wards.	
	It is easier for candidates to be elected as part of a voting ticket than as individuals.

Combination of single-councillor and multi-councillor wards

The possible features of a combined system can be portrayed as follows:

Positive Features	Less Positive Features
A large community of interest can be included within a multi-councillor ward, and a smaller community of interest can be included within a single-councillor ward. This structure accommodates differences in population across a municipality, and allows small communities to be separately represented. Clear ward boundaries are more likely.	Electors in single-councillor wards may expect that their councillors will be more influential than their numbers suggest.

Voting systems

The voting system is another important factor to take into account when considering whether to have single-councillor wards, multi-councillor wards or unsubdivided municipalities. In single-councillor wards, councillors must be elected by preferential voting. In unsubdivided municipalities and multi-councillor wards, councillors must be elected by proportional representation. Under either system, people still vote in the same way. The only differences are the way that the votes are counted.

When there are single-councillor wards, the **preferential system** applies. Under the preferential system:

- a candidate must achieve an absolute majority (50% plus one) of the formal votes to be elected;
- if a candidate obtains an absolute majority of the first-preference votes, then that candidate is elected;
- if no candidate obtains an absolute majority of first-preference votes, preferences have to be distributed:
 - o the candidate with the lowest number of first-preference votes is declared to be a defeated candidate, and that candidate's votes are distributed to the remaining candidates according to the second preferences on the ballot papers;
 - o the process of excluding the lowest candidate and distributing that candidate's preferences to the remaining candidates continues until one candidate has an absolute majority of votes, and is declared elected.

Under this system, the way in which voters allocate their preferences can be just as important as where they place their first-preference votes. Candidates advise voters (through how-to-vote cards and candidate statements) about how to order their preferences, and may negotiate with other candidates about the order of preferences. In some cases, candidates have informal "running mates" to help with the flow of preferences to them.

When there are multi-councillor wards or unsubdivided municipalities, **proportional representation** applies. The basis of proportional representation is that candidates are elected in proportion to their support. Under the proportional representation system:

- to be elected, a candidate must obtain a "quota", which is calculated by dividing the total number of votes by one more than the number of vacancies, and then adding one (for example, in an election for 3 vacancies with 800 votes cast, the quota would be 201);
- when a candidate receives more votes than a quota, the surplus votes are distributed to the continuing candidates at a reduced value, calculated by dividing the surplus votes by the total votes for the candidate (for example, if a candidate achieved 300 votes and the quota was 201 votes, the candidate's surplus would be 99, and ballot papers would be transferred to the remaining candidates at a value of 99 divided by 300);
- when all surplus votes have been distributed and there are still vacancies to be filled, preferences are distributed from the lowest-scoring candidates until a candidate has a quota.

This system means that any candidate who obtains a quota, either through first-preference votes or through the flow of preferences, is elected. In effect, candidates representing large minorities are likely to be represented as well as candidates representing majorities.

Proportional representation has a number of key differences to the exhaustive preferential system which applied in unsubdivided municipalities and multi-councillor wards at previous elections. Proportional representation may return quite different results to the old system. Proportional representation should return candidates that are more representative of voters' choices and should make it more difficult for candidates to be elected as part of a ticket.

How should ward boundaries be drawn?

Getting the numbers right

If Hindmarsh Shire is to remain divided into wards, the ward boundaries must comply with legal requirements. Section 219D of the *Local Government Act 1989* requires that:

- the number of voters represented by each councillor must be within 10% of the average number of voters per councillor for that municipality; and
- the ward boundaries must provide a fair and equitable division of the municipal district.

Where there are multi-councillor wards, the number of voters represented by each councillor for such wards is taken to be the total number of voters for the ward divided by the number of councillors for the ward. For instance, if there are 3 councillors and 12,000 voters for a ward, the number of voters represented by each councillor will be 4,000, that is 12,000 divided by 3.

Ward boundaries **must** meet the approximate equality requirement set by the Act. The number of voters represented by each councillor cannot be more than 10% outside the average number for all councillors. In Hindmarsh Shire, no ward is currently outside the 10% tolerance.

Other considerations

The Act does not prescribe any more details to define what constitutes a fair and equitable division of the municipality. However, the following criteria are useful in considering and (where possible) deciding on proposed ward boundaries:

- the boundaries should take account of communities of interest;
- the boundaries should follow clear lines, such as major roads, rivers and other natural features;
- growing areas should not be concentrated into one ward, but should be spread over several wards; and
- the boundaries should take account of likely population changes, by setting the number of voters in wards with high growth potential somewhat below the average, and the number of voters in wards with little growth potential somewhat above the average. This approach will help ensure that the boundaries stay within the 10% tolerance for a longer period, avoiding the need for frequent redrawing of boundaries.

In developing ward boundaries, the VEC aims to achieve the best possible balance among these criteria.

What should wards be called?

There is a variety of possible approaches to the naming of wards, including:

- **Place names:** A number of municipalities name their wards after localities in the wards. This approach is useful where ward boundaries closely align with localities. However, it can lead to people in smaller localities within a ward feeling overlooked, and may cause confusion if the locality that a ward is named after cuts across a ward boundary;
- **Compass directions:** This is the current approach in, for example, the City of Whittlesea, where the wards are Central, East, East Central, North, North Central, South, South Central, South West and West. It is straightforward. It is of most use where the location of the wards is closely aligned to compass directions;
- **Names of historic buildings:** This is a way of celebrating the municipality's heritage;
- **Names of natural features:** Using the names of natural features such as hills or streams can be a way of identifying wards without the complications of locality names. The features would need to be well known and relevant to the particular wards;
- **Names of pioneers and former prominent citizens:** This is a way of recognising important former residents. It is most appropriate when the person is closely associated with the area covered by the ward; and
- **Aboriginal names:** This is a way of recognising the municipality's Aboriginal heritage. However, the use of Aboriginal names could be seen as being tokenistic if the names are not relevant to areas within the municipality.

Table: Profiles of municipalities

Estimates as at 31 August 2004 (unless otherwise indicated)

Metropolitan (including outer metropolitan)					
Municipality	Area (km ²)	Number on roll	Number of councillors	Number of voters per councillor	Electoral structure

About the VEC

The Victorian Electoral Commission is an independent statutory authority established under Victoria's *Electoral Act 2002*. The VEC is not subject to ministerial direction or control in the performance of its responsibilities. The VEC's main functions include:

- conducting parliamentary elections and by-elections;
- conducting local government elections and by-elections (when appointed by councils);
- conducting representation reviews for councils;
- maintaining an accurate and up-to-date register of electors and preparing rolls for elections; and
- contributing to public understanding of elections and electoral matters through information and education programmes.

In performing these functions, the VEC acts as an independent, impartial authority, acting transparently and with integrity.

Hindmarsh Shire Supplement:
Actual voter numbers as at 30 September 2004

The numbers of voters in each Census collector district within Hindmarsh Shire are:

Ward	CCD	Voters	Ward	CCD	Voters
East	2011910	97	West	2011702	3
East	2011909	106	West	2011703	6
